Summary

I am a results-driven software engineer with over 3+ years experience in frontend development. Holding a BSc in Industrial Chemistry and an MSc in Environmental Chemistry, I seamlessly blend analytical precision with creative design. My expertise lies in crafting visually captivating and user-focused web interfaces using HTML, CSS, JavaScript, and modern frameworks like Next.js, Nuxt.js etc. Driven by a passion for merging functionality with aesthetics, I strive and excel at delivering seamless and engaging digital experiences that captivate and engage users.

Skills

Programming Languages: JavaScript, Typescript, HTML 5, CSS3,

Frameworks & Libraries: React, Next.js, Vue, Nuxt.js, Redux Toolkit, Tanstack Query, Node.js

Tools & Platforms: Git, MongoDB, Wordpress, Bootstrap, Tailwind CSS, Firebase, ShadCN

Other Skills: Responsive Web Design, API Integration, Agile Development, Problem Solving, Collaboration and Teamwork

Experience

Frontend Developer

Ojallu, Lagos (November 2024 - Present)

- Design and implement responsive and user-friendly interfaces using **HTML**, **CSS**, and **JavaScript**, ensuring cross-platform compatibility.
- Develop custom UI components and optimize existing interfaces to enhance user experience and site performance.
- Collaborate with cross-functional teams, including designers and backend developers, to deploy new features and improve functionality.

- Integrate APIs and third-party tools to expand website capabilities and improve user engagement.
- Apply modern frontend techniques like lazy loading and asset optimization to reduce page load time.
- Debug and resolve UI/UX issues, reducing reported bugs.

Frontend Developer

Padding Technology, Lagos (January 2024 – May 2024)

- Built a workspace management application, improving productivity by 25% through streamlined user authentication and invoicing using Next.js, TypeScript, Tanstack Query and Redux Toolkit.
- Built a dynamic website using Nuxt.js, optimizing SEO and enhancing web traffic by 30%.
- Ensured mobile compatibility and cross-browser consistency through responsive design principles.
- Developed a planning application enabling efficient event scheduling and management, leveraging Next.js and Redux Toolkit.

Frontend Intern

HNGX (Zuri), Lagos (June 2023 – September 2023)

- Developed responsive landing pages with React and Tailwind CSS, enhancing client engagement.
- Created a responsive mini movie app using TMDB API, React and TypeScript.
- Built a photo gallery application featuring a drag and drop functionality and firebase based user authentication.

Education

Associate's Degree, Software Engineering

ALX AFRICA (Holberton's School), Nairobi, Kenya (July 2022 – July 2023)

Master's Degree, Environmental Chemistry

University of Port-Harcourt, Port-Harcourt, Nigeria (July 2018 – February 2021)

Bachelor's Degree, Pure and Industrial Chemistry

Nnamdi Azikiwe University, Awka, Nigeria (April 2010 – April 2015)

Certificates

- **HTML and CSS in depth** (Meta, May 2023)
- **Advanced React** (Meta, April 2024)
- **React Basics** (Meta, May 2023)
- **Version Control** (Meta, February 2023)
- **Programming with JavaScript** (Meta, January 2023)
- **Introduction to Frontend Development** (Meta, October 2022)
- **HTML Essential Training** (LinkedIn, April 2021)
